**NEW! Multi-Gender Attractant System:**

**Key Features:**
- PHEROCON LR COMBO DUAL captures Leafroller when LR pheromone alone is shut down.
- Captures both male and female Leafroller vs. males only with LR pheromone alone.
- For use in mating disrupted and conventional Stone Fruit orchards and in Pome Fruit when Leafroller is an invasive species.
- Best product to use in your mating disrupted orchards.

NEW! Multi-Gender Attractant System:

Guidelines For Use:

PHEROCON® LR COMBO DUAL:

1. Placement Time:
   - Install before spring emergence or at bud break for stone fruit or pome fruit.

2. Trap Placement:
   - Within orchard in a grid pattern, leaving an interval of 10-15 meters (30-50 feet) from LR pheromone only traps.
   - Place traps to accommodate for differences due to tree spacing, age, size or cultivar, and problem “hot spots” or borders.
   - Within tree, at 6 – 7 feet (1.8 – 2.1 meters) height.
   - Within outer canopy, on an open limb, not blocked by leaves or developing fruit.

Storage Recommendations:

- Keep unopened factory-sealed packages in a cool place (< 75˚ F or 24˚ C maximum) for short periods until used.
- Refrigerate or freeze unopened packages to carry over for annual storage.

Order Information:

- The PHEROCON® LR COMBO Dual Lures, PHEROCON® VI DELTA Trap, PHEROCON® 1C Trap can be ordered from your Agriculture Chemical Distributor or dealer.
