CM = Codling Moth, OFM = Oriental Fruit Moth, PTB = Peach Twig Borer, CRS = California Red Scale, SJS = San Jose Scale, NOW = Navel Orangeworm, OLR = Omnivorous Leafroller

NOTE: The foregoing is supplied as a general information guideline only. This information is specific to the site location from which it was obtained. For optimum pest management decision making, each orchard site should be individually monitored with traps and environmental monitoring equipment.

**Mark your calendars for the action date listed below:**

**MARCH:** CM, CM-DA COMBO, DA, CRS, and PTB traps should be set.  
PHEROCON® NOW egg traps and pheromone traps should be considered.

**CIDETRAK® DA MEC™, CIDETRAK CMDA COMBO MESO A (Apples) and W (Walnuts), and Puzzle Piece have been approved for organic use!**

CIDETRAK DA MEC has Federal and State registrations for use in apples, pears and walnuts. It is available in 10, 20 and 40 acre container sizes.
