IPM PARTNER® FIELD REPORTER  
FEBRUARY 22, 2013

**This is our first IPM Partner Field Reporter for 2013 representing our 17<sup>th</sup> year of publication. As last season, you can now expect to receive bi-monthly reports through August, 2013. We will appreciate comments or suggestions you might have on this report.**

The counties that will be reporting this season are as follows:

- Kern County – Delano / McFarland Area
- Madera County – Madera Co., East of Madera
- Merced County – Ballico & Winton Areas
- Tulare County – NE Kingsburg Area
- Sacramento County – Delta Area
- Butte County – East Gridley Road
- Yuba County – Marysville
- (Please note: Some scouts work in overlapping counties; therefore, counts are representative of several counties around the noted location)

The Field Reporter provided bi-monthly will be “**site specific**” information regarding trapping, biofix and degree day information for certain insects. This information is supplied by Trece, Inc., as a guide to the timing of spray applications and other pest management operations for certain insects. The material should be regarded as a supplementary aid in insect control planning. Pest Control Advisors shall themselves determine trapping, biofix and degree day information for individual orchards for site specific information.

**NOTE: Mark you calendars for the dates listed below.**

**FEBRUARY:** OFM, OLR and SJS traps should be set.

**MARCH:** CM, CM-DA COMBO, DA, CM 10X, CRS, DBM AND PTB traps should be set.

Trece is pleased to announce the release of a new, more effective PHEROCON® OFM L<sup>2</sup> monitoring lure this season! And, be sure to use Trece’s CIDETRAK® CM and CIDETRAK® OFM-L Mating Disruptant products. These intelligently simple, high performance dispensers for Codling Moth and Oriental Fruit Moth mating disruption are designed to deliver long-lasting performance with remarkably fast application. PHEROCON® CM-DA COMBO multi-gender attractant for monitoring will give you a definite edge in your battle against the codling moth, your toughest competition. This lure has been proven to be the most effective codling moth lure on the market today. For more information on CIDETRAK or CM-DA COMBO lures, and how to interpret data from trap capture, contact Jeff Downs, National Sales Manager, at 559-285-8448.

The IPM PARTNER® Field Reporter™ will also be published on our website [www.trece.com](http://www.trece.com)
