IPM PARTNER® FIELD REPORTER

April 9, 2014

Kern County (Delano/McFarland): **CM** – Biofix 3/15. **OFM** – Biofix 3/1, 576DD. Key timing. **PTB** – Biofix 3/11, 317DD. Key timing will be early this year. **SJS** – Biofix 3/6, 424DD. **CRS** – Biofix 3/8, 282DD. **NOW** – Continuous moth activity prior to 2/26. No synchrony. Egg laying in winter. NOW populations could be high this year due to many orchards with poor sanitation – no removal of mummies.

Tulare County (NE Kingsburg area): **CM** – (Tulare walnuts) Biofix 3/15, no DD update. (Kingsburg plums) Biofix 3/22, 205DD. **OFM** – Biofix 3/8, 514DD. **PTB** – Biofix 3/15, 293DD. **CRS** – Biofix 3/10, no DD update.

Madera County: **CM** – Biofix 3/16, 188DD. **OFM** – Biofix 3/13, 315DD. **PTB** – Biofix 3/29, 90DD. Consistent high catches. **CRS** – Biofix 3/13, 162DD. **OLR** – Biofix 3/13, 258DD. **NOW** – A few moths trapped. No eggs yet.

Merced County (Ballico & Winton areas): **CM** – Biofix 3/19, 189DD. **OFM** – Biofix 3/7, 429DD. **PTB** – Biofix 3/26, 114DD. Not a clean biofix date – inconsistent flight.

Sacramento County (Delta area): **CM** – Biofix 3/19, 184DD. No females yet in PHEROCON® CM-DA COMBO traps. **OFM** – Biofix 3/5, 467DD.

Yuba County (Marysville): **CM** – Biofix 3/19, 182DD. **OFM** – Biofix 3/5, 469DD.

We are pleased to announce the introduction of Trece’s new PHEROCON® Spotted Wing Drosophila, *Drosophila suzukii*, monitoring lure. The PHEROCON SWD lure provides significantly higher capture rates at least 2 weeks earlier than natural bait products currently in use. And, the PHEROCON SWD lure captures fewer non-target insects when used with either natural baits (such as apple cider vinegar) or neutral drowning solutions (such as antifreeze or soapy water). The controlled release lure lasts up to 30 days. Please contact Trece, Inc. at (918)785-3061 or your local distributor to place an order today!

Be sure to use Trece’s CIDETRAK® CM and CIDETRAK® OFM-L Mating Disruptant products. These intelligently simple, high performance dispensers for Codling Moth and Oriental Fruit Moth mating disruption are designed to deliver long-lasting performance with remarkably fast application. PHEROCON® CM-DA COMBO multi-gender attractant for monitoring will give you a definite edge in your battle against the codling moth, your toughest competition. This lure has been proven to be the most effective codling moth lure on the market today. For more information on CIDETRAK or CM-DA COMBO lures, and how to interpret data from trap capture, contact Trece, Inc. at (918)785-3061.

The IPM PARTNER® Field Reporter™ will also be published on our website www.trece.com
